Ortega, Ivan

capture a point-in-time, read-only copy of your data.

Ortega, Ivan

recover your file share when it's deleted by an application or other storage account user.

Snapshots

Soft delete

Ortega, Ivan

Azure File Sync supports as many caches as you need around the world.

Azure file sync

Ortega, Ivan

Cache serveral Azure files shares on an on-premises Windows server or cloud virtual machine

Cloud tiering

Ortega, Ivan

Frequently accessed files are cached locally on the server while all other files are tiered to Azure Files based on policy setting
